About Us

Global Buana Perkasa (GBP) is a nationally recognized building materials distribution company, offering a comprehensive range of products including uPVC profiles, aluminum systems, premium doors and windows, hardware accessories, hollow iron reinforcements, and fabrication machinery. We proudly partner with leading brands such as **ALUVE**, **CONCH**, **Kinbon**, **Roto Frank**, **Guoqiang**, **Yale**, **GNET**, and **GECO** to ensure quality and reliability in every solution we deliver.

Established in 2010, GBP has evolved into a trusted provider of high-quality uPVC and aluminium profiles, delivering reliable window and door solutions throughout Indonesia. With strategically located warehouses in Tangerang, Pekanbaru, Medan, Semarang, and Surabaya, we are committed to supporting residential and commercial building projects in both the public and private sectors.

In 2024, we introduced **ALUVE**, a brand dedicated to premium aluminum doors and windows. To allow customers to experience the quality firsthand, ALUVE has established *showrooms* at *WTC Mangga Dua* in Jakarta and *Grand Central Building* in Pekanbaru.

All products distributed by GBP undergo rigorous testing in compliance with industry standards and have earned various national and international certifications. This commitment to quality and credibility positions us as a reliable distribution partner for door and window fabricators.

With a focus on excellence, product completeness, and customer satisfaction, GBP is ready to meet future industry challenges and is committed to making a meaningful contribution to the development of Indonesia's construction sector.

We welcome collaboration opportunities with all stakeholders in the construction industry, offering complete and high-quality solutions for uPVC and aluminum doors and windows tailored to meet the demands of residential and commercial projects, both government and private.

GBP is a subsidiary of **TB Global Group** in the property and construction sector. As part of this group, GBP remains dedicated to delivering innovative door and window solutions through the distribution of products from leading brands across Indonesia.

About TB GLOBAL

PT Tribuana Global Group (TB Global Group) is a holding company established in 1998 through the merger of several business sectors, including *Building Materials, Heavy Duty Trucks & Equipment, Agribusiness, Trading & Services, and Property & Construction* in Indonesia. Today, TB Global Group has expanded from a single entity into a national-scale group, employing approximately 5,000 people across the country. **PT Global Buana Perkasa** is one of the many companies within **TB Global Group**.

Distribution Brand

With over 15 years of industry experience, we have built strong partnerships with internationally recognized brands to support a wide spectrum of construction and building material projects across Indonesia. Our comprehensive product range includes **uPVC profiles, aluminium systems, aluminium profiles, premium doors and windows, hardware accessories, iron hollow reinforcements, and fabrication machines**, all designed to meet diverse project needs with quality and consistency.

ALUVE

ALUVE is a premium brand under GBP that offers high-quality aluminum door and window products. Designed with advanced technology and modern aesthetics, ALUVE delivers strength, durability, and elegance—ideal for high-end residential and commercial building projects.

CONCH

CONCH is a leading brand from China that provides high-performance UPVC profiles for door and window frames. Known for their strength, weather resistance, and durability, CONCH profiles are available in a variety of colors, making them a versatile choice for various applications.

ROTO FRANK

Roto Frank is a German aluminum system brand that dominates a significant portion of the European market. Renowned for its exceptional quality, long-lasting durability, and refined frame design, Roto Frank is the ideal solution for door and window framing in premium projects.

KINBON ALUMINIUM

Kinbon Aluminium is the flagship brand of Tianjin Jinpeng Aluminium Profiles Manufacture Co., LTD., specializing in the production of high-quality aluminum profiles for both architectural and industrial use. Trusted for its strength and precision, Kinbon is widely used in residential and large-scale commercial construction projects.

GIOQIANG

Guoqiang is a leading Chinese brand offering a wide range of durable and reliable hardware components such as hinges, locks, and handles for doors and windows. Continuously innovating, Guoqiang keeps pace with the latest technological advancements to provide comprehensive solutions for commercial, residential, and institutional projects.

YALE

Yale is one of the most recognized hardware brands in the world of locking systems. With over 170 years of innovation and millions of units in use globally, Yale continues to lead in security solutions. Its reputation for reliability and quality makes it the top choice for door and window locking systems in modern construction projects.

GNET

GNET is an Indonesian building materials brand offering a range of UPVC profiles with a Domestic Component Level (TKDN) of up to 76%. This makes GNET a preferred choice for government and public sector projects that prioritize high-quality, locally manufactured UPVC frame solutions.

GECO

GECO is a trusted Indonesian brand known for delivering high-quality hardware accessories designed for durability and reliable performance. With competitive pricing and a commitment to consistent quality, GECO is the smart choice for builders and fabricators across the country.

Vision & Mission

Vision

To become the leading, most comprehensive, and most innovative uPVC and aluminum distribution company in Indonesia.

Mission

- Strengthen the distribution network for uPVC and aluminum across Indonesia by ensuring top product quality and efficient, on-time delivery.
- Provide a complete range of products and professional services that meet customer needs with the highest standards.
- Continuously innovate by offering uPVC and aluminum solutions aligned with market trends and the evolving demands of the construction industry.

Company Values

These values embody the principles that guide our decisions and actions across all levels of the company.

G- Growth

We are committed to continuous growth and expanding our distribution network by delivering high-quality door and window material products that meet the evolving needs of the market.

B - Best Service

We prioritize excellence in service through fast, precise, and professional distribution, ensuring customer satisfaction in every business transaction.

P - Progressiveness

We embrace innovation and stay adaptive to technological advancements and industry trends to provide high-quality, competitive solutions for door and window materials.

Board of Director

Meet the two visionary leaders who guide the company with strategic insight and a deep commitment to quality, playing a vital role in driving growth and establishing our reputation as a trusted distributor of high-quality window and door materials for projects across the nation.

Company Milestones

Our history reflects a strong commitment to dedication, innovation, and delivering high-quality building material solutions. We specialize in uPVC profiles, aluminum profiles & systems, premium doors and windows, hardware accessories, hollow iron reinforcement, and fabrication machinery. With a focus on comprehensive product offerings, exceptional quality, and customer satisfaction, our journey has been defined by continuous growth and the ongoing success of our business.

2010

Company Founding

On January 28, 2010, the company began its journey under the name Metta Buana Sejahtera (MBS). Shortly after its establishment, MBS emerged as a trusted distributor of high-quality uPVC profiles, fabrication machinery, hollow iron reinforcements, aluminum materials, and accessories for doors and windows.

Strategic Partnerships with Leading Global Brands

In the same year, MBS forged strategic partnerships with internationally recognized brands such as **CONCH, Roto Frank, Yale,** and **Guoqiang**, enabling the company to meet the growing demands of door and window fabricators across Indonesia.

First Distribution Center in Tangerang

MBS inaugurated its first distribution warehouse at the 99 Warehouse Complex, Jl. Raya Salembaran No. KM 4 Blok BW, Dadap, Kosambi, Tangerang. Strategically positioned in a fast-developing industrial area, this location has since evolved into the company's central distribution hub.

2012

Expansion to Pekanbaru

Two years later, MBS strengthened its distribution network by establishing its first branch warehouse in Pekanbaru, significantly expanding its market presence across the Sumatra region.

2021

New Distribution Point in Semarang

To strengthen its presence in Central Java, the company opened a new distribution point in Semarang, further supporting its mission to provide efficient service across key regions.

2023

New Warehouses in Medan and Surabaya

Continuing its growth momentum, MBS established additional warehouses in **Medan**, North Sumatra, and **Surabaya**, East Java, significantly increasing its logistical coverage across Indonesia.

Rebranding to Global Buana Perkasa (GBP)

In line with evolving market dynamics and the company's growth vision, MBS rebranded itself as **Global Buana Perkasa (GBP)**. This rebranding reflects company commitment to maintaining its core business while elevating service standards, driving innovation, and expanding its market reach.

2024

Launch of ALUVE: Premium Windows & Doors

With over 14 years of experience in door and window systems, GBP launched **ALUVE**, a premium brand offering high-performance aluminum windows and doors. To bring ALUVE closer to its customers, showrooms were opened at **WTC Mangga Dua, Jakarta**, and the **Grand Central Bangunan**, Pekanbaru.

2025

Partnership with Kinbon Aluminium

GBP established a strategic partnership with Kinbon Aluminium, an internationally recognized brand known for its high-quality aluminium profiles. This collaboration strengthened our product portfolio and reinforced our commitment to delivering world-class aluminium solutions for the construction and architectural industries across Indonesia.

First ALUVE Warehouse Opens in Tangerang

To accommodate growing market demand and reinforce our distribution network, we are opening the first ALUVE warehouse in Tangerang. This new facility will improve delivery efficiency, streamline inventory management, and enable us to serve our clients across the region with greater speed and reliability.

UPVC Profile

A comprehensive range of uPVC profiles designed to meet the quality demands of door and window systems. Termite-resistant, weatherproof, and low maintenance. Available in a variety of colors to suit both residential and commercial building projects.
